DSA Equity Frame

Recognizing the historical and current context of educational inequity, the DSA works to allocates its resources, remove barriers, and strategically shift inequitable educational environments and experiences, informed by a deep understanding of student needs and evidence-based practice.

DSA Student Success Frame

The DSA engages students through a proactive, data-informed, asset-based, and collaborative approach to student success by focusing on the areas of student well-being, sense of belonging and purpose, and career development.
